Things to consider as you look at data:

Which SE's or Questions did we have a large group do well? Where were they weak?
Where can you tell it was just a wild guess?

Then think about <u>how</u> those concepts were taught.

What was most effective for your students?\*

What surprised you about your data?

What topics will you need to spiral into your next CFA?

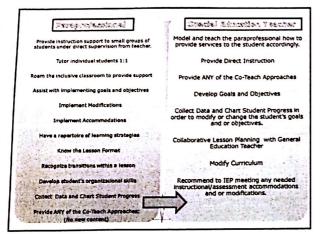

We will visit about this next time we meet by content.
